

June 2009

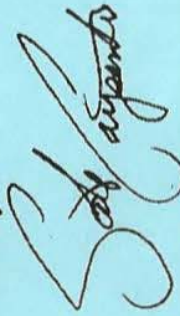

Dear Parents,

The L-S activity fee remains at \$60. Payment of this \$60 fee entitles a student to participate in as many extracurricular events or activities as he or she chooses. This fee allows us to support the breadth of activities at the high school, and participation in our extracurricular offerings helps add to the richness of your student's L-S experience. Your student may chose to join a club or benefit by attending a dance or concert sponsored by another club – either way, the fee supports the quality of our school.

Please note that this fee is different from the \$300 athletic fee. While both the School Committee and the Administration are very concerned about the necessity of collecting fees to support what should be a part of the regular school curriculum, fees have become part of the fiscal landscape.

On behalf of our students, we appreciate your support.

Thank you.

Please detach this portion of the letter and return it to your House Office with a check made payable to LSRHS for \$60.
